## Summer Scholarship Information for Applicants

### Timetable

10 September 2010:	Deadline for Applications
1 October 2010:	Successful applicants notified
15 November 2010:	Scholarship research period begins
22 April 2011:	Research period ends no later than this date
29 April 2011:	Final Scholarship report due

We will also organise a seminar in 2011 for all summer scholars to present their summary results to Bio-Protection Research staff

### Financial information

- a. Scholarship payments (\$900 – tax free) will be made fortnightly, with a final payment of \$500 on receipt of the approved student project report, at the completion of the 10 weeks (see above for details).
- b. For taxation purposes applicants must be intending to undertake full time study in 2011 (Note: this can be any tertiary study).
- c. All additional costs of the project e.g. travel to field sites, consumables etc. are to be covered by existing research funds provided by the supervisor

### Work conditions

The minimum expected hours of work will be 37.5 per week to be worked between Monday and Friday inclusive, between the hours of 7.00 am and 9.00 pm. This includes a refreshment break of 10 minutes within each three-hour continuous work period, except for an unpaid meal break of not less than 30 minutes. From time to time you may be required to work outside of normal working hours. Working hours are to be negotiated with your supervisor.
